**RESPONSE TO RESTRICTION REQUIREMENT**

Dear Sir:

This is in response to the outstanding Office Action dated May 6, 2003. The Examiner states that the application contains claims directed to following patentably distinct species: a method of operating a refrigerated oven to cook a food as described in paragraphs [0010] through [0016]; a method of operating a refrigerated oven to cook a food item as described in paragraphs [0017] through [0019]; and a time-bake cycle for a refrigerated oven used to cook food items therein as described in paragraphs [0020] through [0024]. The Examiner has indicated that a proper response requires Applicants to elect a single disclosed species for prosecution on the merits and to list all claims readable thereon.

Applicants believe that claims 1-18 are readable on the species directed to the method of operating a refrigerated oven to cook a food as described in paragraphs [0010] through [0016], that claims 19-26 are readable on the species directed to the method of operating a refrigerated oven to cook a food item as described in paragraphs [0017] through [0019] and that claims 27-37 are readable on the species directed to the time-bake cycle for a refrigerated oven used to cook food items therein as described in paragraphs [0020] through [0024].

Applicants hereby provisionally elect the species of claims 1-18 directed to the method of operating a refrigerated oven to cook a food as described in paragraphs [0010] through [0016], with traverse.

Respectfully submitted,

Dated: May 22, 2003
